

Dear Colleagues,

As the convener of the RLMO Round Table meeting which will be held in conjunction with the 51st CIML Meeting in Strasbourg, I would like to invite all of you to the Round Table.

We held a Round Table meeting in Arcachon last year, where we reconfirmed the importance of this Round Table and also expressed the expectation about the new website for the Round Table.

The RLMO Round Table continues to be a network and forum for information sharing, a group that has a role to initiate something, and a source of advice and comments for the OIML.

Following the previous meetings, the agenda for the Round Table in Strasbourg will continue to be almost the same as the previous ones. We will exchange and share information about the recent activities of each RLMO through short presentations, and discuss matters related to the role of the RLMOs and the OIML, new ideas to promote cooperation among these bodies, and so on.

At our meeting in Strasbourg, we expect to welcome some Observers who are very interested in our activities. And the representatives of the Advisory Group CEEMS (on matters of Countries and Economies with Emerging Metrology Systems) will join us for the discussion.

Regarding the new website, I have set up a provisional site at:

[http://rlmo-rt.sakura.ne.jp/RLMO\\_RT](http://rlmo-rt.sakura.ne.jp/RLMO_RT)

At the meeting you will be invited to make comments and submit requests for improvement.

I hope many of you will join in the Round Table in Strasbourg and that our discussions will be fruitful.

Yukinobu Miki  
CIML Second Vice President  
Convener of the RLMO Round Table
