

15th International Conference on Legal Metrology

Strasbourg, France

19 and 20 October 2016

Agenda and Working Document

ORGANISATION INTERNATIONALE DE MÉTROLOGIE LÉGALE

INTERNATIONAL ORGANIZATION OF LEGAL METROLOGY

This Working Document for the 15th International Conference on Legal Metrology (Conference) is structured according to the draft agenda as published on the Conference web site (<http://strasbourg.oiml.org/conference.html>):

Agenda

Opening speeches

Roll call

Approval of the agenda

Election of the Conference President and Vice-Presidents

1	Approval of the minutes of the 14th Conference	5
2	Report on the work of the CIMAL (2013–2016)	5
	2.1 Report by the CIMAL President.....	5
3	Report on the work of the BIMAL (2013–2016)	5
	3.1 Organization, management and staff of the BIMAL.....	5
	3.2 Liaisons with other organizations.....	7
	3.3 Technical work and management of OIML systems.....	7
	3.4 Activities relating to the OIML Certificate Systems	7
	3.5 Activities relating to CEEMS (Countries and Economies with Emerging Metrology Systems).....	7
4	Report on the 2013–2016 financial period	8
	4.1 Developments during the reporting period.....	8
	4.2 Surpluses	9
5	Approval of the accounts for 2012, 2013, 2014 and 2015	10
6	Sanctioning of OIML publications.....	11
7	Member States' contributory classes and the contributory share for 2017–2020	11
8	Budget for the 2017–2020 financial period.....	12
	8.1 Member State contribution	12
	8.2 Corresponding Member fee.....	13
	8.3 Tariffs for services provided by the OIML	13
	8.4 Proposed budget for the 2017–2020 financial period.....	13
9	Examination of the situation of Member States in arrears.....	14
	9.1 Overview of Members in arrears and actions taken	14
10	Interpretation of the OIML Convention	14
	10.1 Proposal for an interpretation of the Convention	14
11	Date and venue of the next Conference.....	15
	Annex A Audited accounts for 2012, 2013, 2014 and 2015	17
	Annex B Member State classification review	19
	Annex C Proposed budget for the 2017–2020 financial period.....	21
	Annex D Report on publications approved by the CIMAL since the 14th Conference.....	23

Note:

1 Approval of the minutes of the 14th Conference

The minutes of the 14th Conference are available for download on the OIML web site at:
<https://www.oiml.org/en/structure/conference/pdf/14-conf-minutes-english.pdf>.

2 Report on the work of the CIML (2013-2016)

2.1 Report by the CIML President

The CIML President, Mr. Peter Mason, will give a presentation on the work of the CIML since the 14th Conference. A written report will be made available on the Conference web site (<http://strasbourg.oiml.org/conference.html>)

3 Report on the work of the BIML (2013-2016)

3.1 Organization, management and staff of the BIML

3.1.1 Composition of the BIML staff

As of 31 December 2012, the Bureau comprised a total of 9 staff members:

- 1 Director
- 2 Assistant Directors
- 1 Engineer
- 2 Administrators
- 1 Editor / Webmaster
- 1 IT Systems Manager
- 1 Database Systems Manager

The term of the current BIML Director, Mr. Stephen Patoray, was renewed by the CIML in October 2015 for a period of **three** years, ending on 31 December 2018. A search for a new Director will take place during 2017/2018, with the new Director taking up the post on 1 January 2019.

On 12 February 2016, after a short but intense battle against cancer, BIML Assistant Director Willem Kool passed away. A discussion on his post is on the agenda of the 51st CIML Meeting.

In order to deal with the continuing workload until a permanent replacement is found, the BIML has temporarily engaged two people:

- Mr. Gilles Vinet was hired to provide assistance with tracking the progress of the technical work and updating the technical data on the website. This work is of limited scope and the contract stipulates a maximum number of hours for work each month;
- Mr. Paul Dixon was contracted for a *Specific Task of Limited Duration* and will be working with the Bureau on a full time basis until December 2017.

As of 19 October 2016, the staff of the Bureau comprised a total of 8 members:

- 1 Director
- 1 Assistant Director
- 1 Engineer
- 2 Administrators
- 1 Editor / Webmaster
- 1 IT Systems Manager
- 1 Database Systems Manager

Based on the status of work identified by the Committee, there are no current plans to add to the total number of 9 BIML full-time posts.

3.1.2 Other developments

3.1.2.1 Staff regulations

The revision of the BIML Staff Regulations (OIML B 7) mentioned at the 14th OIML Conference was submitted to the CIML for approval in 2013 and approved under Resolution 2013/4.

3.1.2.2 Management Audit

A follow up audit by Mrs Marie-Pierre Cordier was completed in late October 2012. She spent three days in the Bureau going through a large number of documents, talking to available staff members and thoroughly working through the process. At the CIML Meeting in 2013, CIML President Mr. Peter Mason gave the following report on this audit:

"A further management audit has been successfully completed by Mme Marie-Pierre Cordier, external auditor at the Cour des Comptes. This highly respected independent body audits the accounts of the French government. In her summary Mme Cordier stated as follows:

"The progress made in two years by the Director appointed in January 2011, Mr. Stephen Patoray, are considerable. The starting point (the situation in 2010) was extremely worrying and the Bureau was in a risky situation with important management fields out of control. The current situation is at the opposite. I consider now that the BIML is under control and that expenditure is monitored in a satisfactory way. It is not so frequent to note such important change conducted in a tight time schedule".

In the light of this very strong endorsement, I would like to express my gratitude to the Director and his team for this significant accomplishment. I have been very impressed by the way in which all the staff in the Bureau, under the leadership of the Director, have risen to the challenges of the program of change which we have introduced.

The Director will be providing information on the current financial position of the Organization. One point to note is that in spite of the expenditures for both the renovation of the offices and the new IT systems, the OIML continues to be in a healthy financial position.

Mme Cordier also stated "My recommendations for the near future would be to issue the new Staff regulations, to improve the return on the investment of the OIML funds (which is now very low) and to monitor closely the works to be done in the building". I am pleased to report that the past year has again seen a lot of activity in terms of achieving these goals."

3.1.2.3 *Lawsuit*

Several years previously, during the time of the previous Director, a law suit had been filed against the BIML. It had taken some time to work its way through the ILO tribunal system. When Mr. Patoray had arrived, it had been clear that much more information needed to be provided to the OIML's attorney to support their case. As a result, a report had been prepared and presented to the attorney, with the result that a positive decision had been obtained from the ILO. However, a counter claim for costs had been refused. Although it had been said that the case had some merit, fees for the ILO were charged at approximately €20 000 and attorney fees at about €10 000. This charge can be seen in the financial report, but at least there had been a positive outcome.

3.2 **Liaisons with other organizations**

An overview of the main developments in the liaisons with other international organizations since the 14th Conference will be presented to the Conference. For detailed information, please refer to the minutes of the 48th, 49th and 50th CIMP Meetings (ref [H], [K] and [N]) and the working document for the 51st CIMP Meeting (ref [Q]).

3.3 **Technical work and management of OIML systems**

An overview of the main developments in the technical work and the management of the OIML systems since the 14th Conference will be presented to the Conference. For detailed information, please refer to the minutes of the 48th, 49th and 50th CIMP Meetings (ref [H], [K] and [N]) and the working document for the 51st CIMP Meeting (ref [Q]).

3.4 **Activities relating to the OIML Certificate Systems**

An overview of the activities relating to the existing OIML Basic and MAA Certificate Systems since the 14th Conference will be presented to the Conference.

An overview of the main developments relating to the establishment of a new integrated OIML Certification System (OIML-CS) will be presented to the Conference.

For detailed information, please refer to the minutes of the 48th, 49th and 50th CIMP Meetings (ref [H], [K] and [N]) and the working document for the 51st CIMP Meeting (ref [Q]).

3.5 **Activities relating to CEEMS (Countries and Economies with Emerging Metrology Systems)**

Building on the initiative taken at the 47th CIMP Meeting (Resolution no. 2012/7) to allocate funding to support OIML activities aimed specifically at developing countries (such as awareness raising activities, activities aimed at obtaining funding from other international organizations, access to training tools currently being developed, promoting collaboration between Regional Legal Metrology Organizations, and other similar activities) there has been

continued progress in developing OIML activities which are of particular relevance to Countries and Economies with Emerging Metrology Systems (CEEMS).

In 2013 the CIMP decided (Resolution no. 2013/9) to establish an Advisory Group chaired by the then CIMP Member for P.R. China, which subsequently commissioned a survey of the needs of the CEEMS community and recommended using a seminar/workshop approach to generate further ideas on the initiatives the OIML could take in this area.

Two seminars were held in 2015, in Chengdu (P.R. China) and in Arcachon (France), which enabled the CIMP to adopt a wide-ranging resolution (Resolution no. 2015/10) consisting of several instructions to the BIMP and CIMP officeholders (for instance on better use of the OIML website, participating in capacity-building activities, etc.), a number of directions concerning items of technical work, and recommendations to Member States on how they might increase their involvement. A common theme was the need for the OIML to work in partnership with others, notably funding agencies, Regional Legal Metrology Organizations and individual Member States, in order to maximise the effectiveness of the OIML's contribution.

The *OIML Award for Excellent Contributions in Legal Metrology in Developing Countries* has also proved to be a popular initiative, stimulating a number of the ideas which were discussed at the two Seminars in 2015.

4 Report on the 2013-2016 financial period

4.1 Developments during the reporting period

4.1.1 *Renovations of the BIMP infrastructure*

The following is a list of accomplishments over the period:

- New server
- New backup system
- New website
- New databases
- New boiler and pumps
- New roof
- Venting in attic
- Resurfacing of front and rear façades
- Emergency exits
- New kitchen
- Complete renovation of all drainage pipes under building
- New conference center, including office and reception area
- Air conditioning on lower level and one office on ground level
- Ventilation in lower level
- Renovation of toilet areas
- Removal of damaged chimney
- New courtyard and terrace
- Renovation of front door
- Replacement of some doors and windows
- Full upgrade and automation of the electrical installation
- Installation of full security system including video surveillance
- Renovation of the garden

Estimated total renovation costs, including VAT (4 years)	711 k€
Estimated total costs for computer system, software, servers (4 years)	245 k€
Estimated total cost for website	39 k€

4.1.2 Building cost and value

The renovations detailed in 4.1.1 were undertaken both to improve the effectiveness of the Bureau's operations and to safeguard the value of the property at 11 rue Turgot, which is the OIML's principal asset. The OIML bought the property in 1963 for 410 000 French Francs (€62 504).

The equivalent of €62 000 on 1 January 1963 is €567 404 on 7 April 2016.

Inflation over the period: 815.17 %,

Index used: FRCPI1998 (INSEE),

Initial Index: 13.93,

End Index: 127.45.

The property at 11 rue Turgot was appraised at €3.2 million in 2014. A new appraisal is currently being sought.

4.1.3 Accounting

The IPSAS accrual accounting method has been functioning well since 2011. All adjustments have now been able to work their way through the process.

The auditing firm, *LG Audit & Conseils* continues to audit the OIML accounts and was reconfirmed by the CIML in 2014.

A new actuarial study was completed on the OIML Pension System after it was officially closed. The actuary reports that the liability for the recipients of the OIML retirement payments is €2.7 million.

4.2 Surpluses

The Convention, in Article XXV, final paragraph, states that the Conference shall decide on what is to be done with any surpluses that exist at the end of the financial period. The two options provided are:

- a reduction in the dues of the Member States, or
- adding the surplus to the reserves.

The total surplus over the 2013–2016 financial period is approximately €212 000 corresponding to approximately 1 month of operation of the Bureau.

The following draft resolution is proposed to the Conference:

Draft Resolution no. ...

The Conference,

Having regard to Article XXV, final paragraph, of the Convention,

Resolves:

The budget surpluses (net results) from the 2013–2016 financial period shall be added to the reserve funds.

5 Approval of the accounts for 2012, 2013, 2014 and 2015

The accounts for 2012, 2013, 2014 and 2015, after verification by an external auditor, were submitted to the Committee for review and approval in the format according to Annex 3 of the OIML Financial Regulations (OIML B 8:2012).

The accounts for 2012 were approved at the 48th CIMP Meeting in 2013 (Resolution no. 2013/7), the accounts for 2013 were approved at the 49th CIMP Meeting in 2014 (Resolution no. 2014/6) and the accounts for 2014 were approved at the 50th CIMP Meeting in 2015 (Resolution no. 2015/5).

The accounts for 2015 will be examined by the CIMP at its 51st Meeting this year.

The accounts for 2012, 2013 and 2014 as approved by the Committee, and for 2015 as presented to the Committee, are reproduced in Annex A.

The following draft resolution is proposed to the Conference:

Draft Resolution no. ...

The Conference,

Having regard to Article XXV, penultimate paragraph, of the Convention,

Noting CIMP Resolutions nos. 2013/7, 2014/6 and 2015/5, and 2016/...,

Resolves:

The audited accounts for 2012, 2012, 2014 and 2015 are hereby approved. The CIMP President and the BIMP Director are finally discharged for the financial management during these years.

6 Sanctioning of OIML publications

According to B 6-1:2013, 6.7.4.1, the Recommendations, Documents and Vocabularies approved by the CIML since the 14th Conference are presented in the report in Annex D.

The following draft resolution is proposed to the Conference:

Draft Resolution no. ...

The Conference,

Having regard to Article VIII, first and fifth paragraphs, of the Convention,

Noting the report on publications approved by the Committee since the 14th Conference in Annex D,

Resolves:

The OIML publications listed in the report in Annex D are hereby sanctioned. Member States are reminded of their obligation to implement OIML Recommendations as far as possible.

7 Member States' contributory classes and the contributory share for 2017-2020

According to Article XXVI (1) of the Convention, Member States are classified according to the size of their population and may be put in a lower class when the use of measuring instruments is clearly below the average. In 2012, the Conference decided (Resolution no. 2012/8) on a procedure to implement this provision of the Convention as follows:

The classification is reviewed in the final year of every financial period on the basis of World Bank figures for the population, adjusted for the size of the economy according to their Gross National Income per capita (GNI):

- by one class for lower middle income countries whose GNI is greater than twice that of low income countries,
- by two classes for lower middle income countries whose GNI is lower than twice that of low income countries, and
- by three classes for low income countries, the resulting class being at least Class 1.

Any change in the classification of a Member State as a result of this review takes effect from the second year of the following financial period.

Based on the review conducted in 2016 on the basis of the World Bank figures over 2014, the following Member States are being reclassified, effective from 2017:

Greece: from Class 2 to Class 1;

Belgium: from Class 1 to Class 2;

Pakistan: from Class 1 to Class 2.

The full information concerning this classification review is contained in Annex B, which shows the resulting number of contributory shares, including the new Member States of Thailand and Cambodia, to be 144 before reclassification and 146 after reclassification. The number of contributory shares is:

- 1 for Class 1,
- 2 for Class 2,
- 4 for Class 3, and
- 8 for Class 4.

Including the new Member States of Thailand and Cambodia (effective from 2017) the total number of contributory shares is:

- for 2017: 144,
- for 2018, 2019 and 2020: 146,

exclusive of any changes due to admissions or resignation of Member States.

It should be noted that an annual review with the objective to reclassify Member States is not in line with Article XXVI (1) of the Convention which implies that the contributory share of a Member State is fixed for the financial period and that the annual contribution is determined by equally distributing the share of a Member State over all the years of a financial period. Therefore, a reclassification should only be initiated for the whole financial period, based on a review in the year immediately prior to that period. However, because the Conference decides on the contributory shares at a time when the Member States would already have prepared their budgets for the first year of the next financial period, the change in contribution should be made effective only from the second year of the financial period.

8 Budget for the 2017–2020 financial period

At its 51st Meeting the Committee will examine the draft budget for the 2017–2020 financial period, proposed by its President and the BIML Director, as follows:

8.1 Member State contribution

The base contributory share (annual contribution for a Member State in Class 1, as defined in Article XXVI (1), of the Convention) for 2016 was set at €14 000. The proposed progression for the 2017–2020 financial period is as follows:

2016: €14 000
2017: €14 000
2018: €14 000
2019: €14 000
2020: €14 000

This represents no change in 2017 compared to 2016, with no increase in the subsequent years.

The number of Member States as of 1 January 2017 will be 62. Taking into account the classification of the Member States and the reclassification of some Member States on 1 January 2017 and 1 January 2018, as indicated in section 7, the total number of base contributory shares is 144 for 2017 and 146 for the subsequent years.

It is proposed to set the entry fee for new Member States, mentioned in Article XXVIII, second paragraph, of the Convention, at €0 for the 2017–2020 financial period.

8.2 Corresponding Member fee

As decided by the 13th Conference, the annual Corresponding Member fee shall be equal to 10 % of the base contributory share for a Member State. As a result, the progression for the 2017–2020 financial period would be:

2016: €1 400

2017: €1 400

2018: €1 400

2019: €1 400

2020: €1 400

The number of Corresponding Members is estimated to be 65 for the entire 2017–2020 financial period.

There is no entry fee for Corresponding Members.

8.3 Tariffs for services provided by the OIML

8.3.1 MAA

The proposed application fee for becoming an Issuing Participant for the 2017–2020 financial period is €1 700 (2016: €1 700).

8.3.2 OIML Basic Certificates and MAA Certificates

The proposed registration fee for OIML Basic Certificates and MAA Certificates for the entire 2017–2020 financial period is €350 (2016: €350).

8.3.3 OIML Certification System

If the *Framework for the OIML Certification System* (OIML-CS) is approved by the CIML at its 51st meeting and the OIML-CS comes into operation on 1 January 2018, the registration fee for all certificates issued under the OIML-CS will be €350. There will be no application fee for becoming an Issuing Authority under the OIML-CS.

8.4 Proposed budget for the 2017–2020 financial period

Based on the principles set out in 8.1–8.3 above, and taking into account an estimated annual inflation rate of 2 %, the CIML President and the BIML Director propose the budget given in Annex C for the 2017–2020 financial period.

The following draft resolution is proposed to the Conference:

Resolution no. ...

The Conference,

Having regard to Article XXIV, first paragraph, Article XXVI (1), and Article XXVIII, second paragraph, of the Convention,

Noting Resolutions No. ... , No. ... and No. ... of the 51st CIML Meeting,

Considering that the total number of base contributory shares, taking into account the classification of Member States as reviewed in 2016, is 144 for the year 2017 and, after reclassification of some Member States, 146 for the remaining years of the 2017–2020 financial period,

Resolves:

- (1) *The overall amount of credits, necessary to cover the Organization's operating expenses shall be €8 827 000 for the 2017–2020 financial period;*
- (2) *the annual base contributory share for the 2017–2020 financial period is €14 000. This results in a total contribution for a Member State classified according to Article XXVI (1) of the Convention in Class 1, Class 2, Class 3 or Class 4 of €56 000, €112 000, €224 000 or €448 000, respectively,*
- (3) *in case of admission of a Member State during the financial period, the overall amount of credits mentioned in (1) is increased with the contributory share of that Member State, calculated from its classification and the base contributory share, proportionate to the period from its admission to the expiry of the financial period,*
- (4) *for the 2017–2020 financial period, newly admitted or readmitted Member States shall not pay an entry fee.*

9 Examination of the situation of Member States in arrears

9.1 Overview of Members in arrears and actions taken

The BIML Director will give an overview to the Conference of Member States and Corresponding Members in arrears and the actions taken.

10 Interpretation of the OIML Convention

10.1 Proposal for an interpretation of the Convention

At the 50th CIML Meeting in 2015, the Committee considered the problems in achieving a quorum at CIML meetings. In its Resolution on this matter (2015/19), it observed that:

- according to Article XIII of the Convention, persons designated by their government as Member of the Committee shall be serving officials in the department concerned with measuring instruments or have active official functions in the field of legal metrology,
- according to Article XVII of the Convention, the quorum for decisions at a meeting of the Committee, or for resolutions taken by the Committee by correspondence, is three-quarters of the number of persons designated as Members of the Committee,

It then went on to note that:

- it is sometimes not clear whether a person designated as Member of the Committee still satisfies the conditions for membership, and that
- it is becoming increasingly difficult to achieve the quorum for decisions of the Committee,

It was therefore of the opinion that, if a person designated as Member of the Committee no longer satisfies the conditions for membership of the Committee, this person should cease to be regarded as a Member of the Committee for the purposes of calculating any quorum.

The Committee therefore resolved to ask the 15th Conference to approve a procedure relevant to the fourth paragraph of Article XIII of the Convention. This procedure is presented in the following draft resolution which is proposed to the Conference:

Draft Resolution no. ...

The Conference,

Having regard to Article XIII of the Convention,

Noting the discussions at the 50th CIMP Meeting and its Resolution no. 2015/19,

Resolves:

- a) if the designated representative of a Member State is known to no longer satisfy the conditions for membership of the Committee and the Member State has not yet designated a new representative, this person shall no longer be taken into account when establishing the quorum for decisions of the Committee,
- b) if the designated representative of a Member State has not responded to any communication from the Bureau for more than six months and the Bureau has made all reasonably possible attempts to contact the designated representative, the Bureau shall seek confirmation from the Member State as to the status of its representative in the Committee, according to a procedure decided by the Committee,
- c) if it is not possible, within a reasonable period of time to be decided by the Committee, to obtain confirmation from the Member State as to the status of its representative in the Committee, this person shall no longer be taken into account when establishing the quorum for decisions of the Committee.

11 Date and venue of the next Conference

According to Article X of the Convention, the Conference shall meet at least every six years. In practice, the Conference meets every four years. This coincides with a four-year budget period. Following this practice, the next Conference should be organized in 2020. The Conference may delegate the responsibility to fix date and place of the next Conference to the Committee.

The following draft resolution is proposed to the Conference:

Draft Resolution no. ...

The Conference,

Having regard to Article X of the Convention,

Considering the standing practice to organize a Conference once every four years,

Resolves:

The Committee is hereby charged to organize the 16th Conference in 2020, the venue and dates to be decided by the Committee.

Annex D Report on publications approved by the CIMP since the 14th Conference

As required by OIML B 6:2013, 6.7.4.1, this Annex lists all OIML Recommendations, Documents and Vocabularies approved by the Committee in 2013, 2014, 2015 and 2016.

15th International Conference on Legal Metrology

Item 6

Sanctioning of OIML publications

Below is a list of all OIML Documents, Recommendations and Vocabularies that were either:

- approved by the CIMP at its 48th Meeting (2013), 49th Meeting (2014) and 50th Meeting (2015),
or
 - submitted to the 51st CIMP Meeting (2016) for approval.
-

2013

Approved at the 48th CIMP Meeting (Resolutions 2013/11 and 2013/19)

- R 46-3 *Active electrical energy meters – Part 3: Test report format*
 - R 49-1 *Water meters for cold potable water and hot water – Part 1: Metrological and technical requirements*
 - R 49-2 *Water meters for cold potable water and hot water – Part 2: Test methods*
 - R 49-3 *Water meters for cold potable water and hot water – Part 3: Test report format*
 - R 144 *Instruments for continuous measuring CO and NOx in stationary source emissions*
 - R 100 *Atomic absorption spectrometer systems for measuring metal pollutants*
 - D 11 *General requirements for measuring instruments – Environmental conditions*
 - V 1 *International vocabulary of terms in legal metrology (VIML)*
-

2014

Approved at the 49th CIMP Meeting (Resolution 2014/15)

- Amd R 35-1 *Material measures for length for general use – Part 1: Metrological and technical requirements*
- R 50-1 *Continuous totalizing automatic weighing instruments (belt weighers)*
– Part 1: *Metrological and technical requirements*
- R 50-2 *Continuous totalizing automatic weighing instruments (belt weighers)*
– Part 2: *Test procedures*
- R 50-3 *Continuous totalizing automatic weighing instruments (belt weighers)*
– Part 3: *Test report format*
- R 117-2 *Dynamic measuring systems for liquids other than water*
– Part 2: *Metrological controls and performance tests*

- R 117-3 *Dynamic measuring systems for liquids other than water*
– Part 3: *Test report format*
- R 139-1 *Compressed gaseous fuels measuring systems for vehicles*
– Part 1: *Metrological and technical requirements*
- R 139-2 *Compressed gaseous fuels measuring systems for vehicles*
– Part 2: *Metrological controls and performance tests*

Direct CIML online approval in 2014

- R 137-3 *Gas meters – Part 3: Test report format*
 - Amd R 137-1 *Gas meters – Part 1: Metrological and technical requirements*
 - Amd R 137-2 *Gas meters – Part 2: Metrological controls and performance tests*
-

2015

Approved at the 50th CIML Meeting (Resolution 2015/14)

- R 79 *Labeling requirements for prepackages*
 - R 139-3 *Compressed gaseous fuels measuring systems for vehicles*
– Part 3: *Test report format*
 - R 145 *Ophthalmic instruments - Impression and applanation tonometers*
-

2016

Submitted for approval at the 51st CIML Meeting (See CIML Item 9.1)

- R 59 *Moisture meters for cereal grains and oilseeds*
- R 87 *Quantity of product in prepackages*
- New R *Protein measuring instruments for cereal grains and oilseeds*
- New R *Standard blackbody radiator for the temperature range from –50 °C to 2500 °C*
